

Shehzad Mansuri

Technical Program Manager & Associate Product Manager

(714) 872-7292 | shehzadm7861@gmail.com | linkedin.com/in/shehzadmansuri | Irvine, CA

SUMMARY

Program and Product Manager embedded at a Fortune 50 technology company, taking infrastructure and data platforms from discovery through launch, including 3 platform launches in a single quarter. Authored PRDs, led product discovery, and built AI-native workflow automation systems adopted across the organization.

EXPERIENCE

Deloitte

Jan 2024 — Present

Consultant, AI & Engineering

Fortune 50 Technology Company (embedded via Deloitte) · Infrastructure & Data Centers

Technical Program Manager & Associate Product Manager

Mar 2025 — Present

- **AI-native program operations:** built a personal “Second Brain” on Claude Code, Codex, and Obsidian; automated PM workflows across 30+ sources with approval gates, cross-source reconciliations, and verification catching ~14% of extracted items as fabricated; ~10 hrs/week reclaimed, adopted by 35+ PMs and engineers. Scaled to a 30-member team-wide “Third Brain” as a shared AI-driven working space and knowledge repository with limited manual overhead.
- **Site-selection platform:** stood up the program's operating rhythms from scratch for a 20-person team, taking concept to production in 3.5 weeks; consolidated siloed cost, schedule, and risk data into one source-of-truth for a \$60B+ portfolio; tracked 94 projects and 500+ leads for ~300 monthly active users. Drove AI document-to-project extraction — 48 mapped fields, confidence review, human approval before write — and a 6-dimension lead-scoring model, concept to demo in 2 weeks.
- **Business intelligence & executive analytics platform:** shipped a centralized metrics experience cutting engineering reporting support 80%, business-review prep 30%, and metric-management clicks 70%; co-led a 7-page VP dashboard migration at parity and defined its AI assistant requirements — dual-agent validation, LLM-powered metric search, analytics-agent integration.
- **Enterprise financial platform:** owned integration roadmap & releases for a 7-module platform tracking \$20B+ in spend; shipped 475+ features and 650+ tasks, cut open bugs 75%, and covered client PM through a 90-day leave.
- **Data-science operations:** built the intake & roadmap operating model for 43 projects; authored PRDs for an org-wide roadmap-planning tool; launched 10+ dashboards including an equipment data hub across 35+ data centers.

GenAI Privacy Program Manager

Nov 2024 — Jan 2025

- Reviewed 140+ GenAI product releases for privacy and risk with 3 client privacy managers; briefed 40+ product, legal, and policy stakeholders on roadmap and mitigation.

PMO Analyst

2024

Fortune 500 Cybersecurity, Healthcare & Entertainment Clients (via Deloitte)

- Scoped \$10M+ market opportunity across customer-partner and outcomes programs; supported \$2M ERP MVP across user stories, RAID log, and status reporting; documented supplier scope for a Medicare divestiture.

SKILLS

Product & Program: Product strategy, product lifecycle, roadmap planning, product discovery, user research & testing, PRD authoring, MVP scoping, feature prioritization, success metrics, cross-functional leadership, stakeholder communication, launch execution, release & risk management, OKRs, GenAI privacy & governance

AI & Tools: AI product strategy, LLM evaluation, agent architecture, multi-agent orchestration, RAG / retrieval design, human-in-the-loop review, model governance | Claude Code, Codex, Obsidian, JIRA, Smartsheet, Figma, SQL, SAP

EDUCATION & CERTIFICATIONS

University of California, Irvine — BA, Business Administration

2023

Information Systems & Organization and Management | GPA 3.93

AWS Certified Cloud Practitioner · AWS Certified AI Practitioner · GCP Certified GenAI Leader · Anthropic Claude 101
